

# 'Macbeth' to be presented at Stop Gap through Dec. 18

By ROBERT EMMER

An all-student production of William Shakespeare's tragedy "Macbeth" will be presented through Dec. 18 by the Drama Department at the Stop Gap Theatre.

The production is being directed by Robert Mills, a graduate student. The somewhat revised play was done by Mills for his master of fine arts thesis project. His main revisions of the play concern interpretation and setting.

To achieve an updated interpretation, Mills has set the play in its original Scottish setting rather than the often used Elizabeth setting. Carole Brown, production coordinator, said, "Doing it in the original Scot-

tish gives the play a coldness, and I think the whole theme comes through better."

Hal Boker and Camille Rezutko, both graduate students, play the leading roles of Macbeth and Lady Macbeth.

Sets were designed by James Shanahan and lighting was staged by James Gross, an undergraduate. John Blankenchip, a drama professor, is responsible for the costume design in the play.

The role of King Duncan is played by Bob Boucher and Malcolm, son of King Duncan, is being played by Mike Moore. Alex Hermann plays the comic relief part of a porter. Others

in the cast are Tory Christensen, Alan Hubbs, Cris Capan and Michele Dedeaux.

The reason for the extended nine day running of the play is due to the fact that it is being staged in the small 93-seat Stop Gap Theatre. Bovard Auditorium was not available for the group's use because the auditorium is being used by the School of Music's presentation of the opera "Jenufa."

Tickets for the performances are \$1.50 for weekdays and \$2.50 for weekends, and can be purchased at the door the night of the performance. Reservations and information concerning ticket discounts can be obtained by calling 746-6063.

## Rock group concert set for Town & Gown

Humble Pie and Fire and Ice, two rock groups, will appear in concert at Town and Gown Foyer at 8:30 p.m. Friday.

While the Fire and Ice group has appeared at USC previously, this will be the first appearance for Humble Pie, a British group, which was formed earlier this year out of the remnants of two other English bands, Small Faces and Herd.

Humble Pie was created by Steve Marriott, former vocalist-guitarist of Small Faces, and Peter Frampton, who was the lead singer of Herd. Also in the group are Greg Ridley, on bass guitar and Jerry Shirley on drums.

The group is managed by Andrew Loog Oldham, former manager of the Rolling Stones.

A recent review in Cash Box magazine described Humble Pie as, "One of the happiest pop events of 1969 and a group well on its way to innovative rock stardom."

Humble Pie presently has one album, "As Safe as Yesterday Is," as well as a single release, "Natural Born Bugie."

## BSU benefit barbeque set

A noon benefit barbeque will be held Dec. 15 to raise money for the Black Students Union-sponsored "Week on Poverty."

The barbeque will feature live entertainment from big-name bands and lunch for \$1. Tickets are available in front of Tommy Trojan and at the BSU office.

The "Week on Poverty" is planned for after Christmas vacation. Canned goods and money will be collected at that time for needy families in the area. Some of the food will be sent to farm workers in Delano.

Speeches by nationally-known figures, television films and discussions will be included in the poverty week program.

## Expert to talk on deviance

Dr. Albert Cohen, nationally-renowned expert in the area of deviant behavior, will speak tonight at 8 in the Student Activities Center.

He is the author of various books on deviance, including "Delinquent Boys," "The Culture of the Gang," "Deviance and Control," and "Structure of the Deviant Act: Atomic Theory and Beyond."

Cohen also heads the American Sociological Association Concerned with Crime.

# 10 things America's new small cars won't talk about.

Nova talks about things those new little cars prefer not to mention. For instance, (1) a cargo-guard luggage compartment; (2) an extra set of fenders inside the fenders; (3) flush and dry rocker panels that help prevent rust and corrosion; (4) a quality built Body by Fisher; (5) Magic-Mirror acrylic lacquer finish; (6) a firm, steady ride programmed by computer-selected springs; (7) six different engines and five transmissions available; (8) an available lighting group that even includes a monitor for your windshield washer fluid; (9) radios you can order, with antennas built right into the windshield and (10) the availability of a new, more compact radio/stereo tape system. America's little cars don't offer them. Nova does. Nova also has a very appealing price. And a lot of loyal friends. Wonder why.

Putting you first, keeps us first.

**Nova: America's not-too-small car**
